

February 13, 2011

We had always heard concerns from friends who built homes, and, were cautioned to carefully choose a builder to help manage one of the biggest investments we'll ever make. DreamBuilt Homes proved to be an extraordinary full service builder. As our partner, they produced flawless designs, negotiated with the Reynolds' Review Board, selected and managed multiple contractors, and, built an exquisite, high quality home that was completed as promised.....on time, and, at the committed cost. In short, DreamBuilt listened to our dreams and made them come true!
