Greensboro, Ga. 30642

Dear Ann, Derek, Paige & Jim,

Karen & I want to thank you so much for the excellent experience we had with you guys in building our house. I think because of the extensive planning process in the very beginning, before any construction was initiated, made all the difference in the world. The planning was made easier due to the extensive knowledge and experience all of you have in the building business. Also, knowing the requirements and covenants for Reynolds Plantation saved a lot of time and frustration as well.

The actual construction of the home stayed on schedule as you said it would and everything seemed to just fall in place. I'm sure that's not by accident, but rather careful planning and a lot of follow-up on your part. The actual cost of construction versus the contract price was right on target. I think our actual overage was less than 2%, which we were very pleased with. We are quite happy with the quality of the construction and are excited about having a house with very low maintenance. During the construction, we impressed with how clean and neat the lot and house was kept, making it easy for us access the property and look at the daily progress.

Please add our name and phone number to your referral list, as it would be a pleasure for us to recommend you to anyone think about building a new house and we would be delighted and proud to show our home to any prospect.

Thank you again and we wish you much continued success in the future.

Best regards,

Tren Watson
